

Love Again

Yo Gen

Gotta work it out somehow
I made too many promises, I won't go back it, no
Girl we gotta work it out right now
I swear I'll make u love again
I'll make u love again
If this the last thing that i say
I'll make sure I say it the right way
If this the last thing that i do
I'll make sure that i get through to u

It's been too many days, too many nights
Without u by my side
Too many pills coz the pain kills,
But I'm like water, still
Baby u gotta understand one thing
That whatever i did was to b d king
U b d queen n we would b ruling
I got blinded by d fame n bright lights
I stepped everything aside, so that i could b at d top
Buy u things u wanna shop
Hop into all d hotspots, goldspots
Bring u happiness unbound, unfound
Make your life a merry go round
But success sucked out d life in me
Amazed me, dazed me, i left u completely
Solitary reaper that's what i made u
I'm here to apologise, i love u
I made mistakes and I'm here to correct it
N u never deserve to go through that shit

Forgive me for the tears that u shed, made u feel bad, made u cry, coz i never tried
Coz i thought it was just a phase, i got attracted to the race, i never tied the lace, i thought i had pace
But i stumbled, got humbled
D day i came back to senses, u had left
That put me in trenches, stretches
Life's no more, please help me stow
I'm feeling low, I'm getting slow
My visions hazy, my mind's drowsy
N lately my behaviors lousy

N u gotta know we gotta work it out somehow

Do u remember d times that we had

They were great, i wish i had

Put it in a safe, locked it n threw it away

So that nobody could come between us for even a day

Nobody should even point a finger at u

Coz I'd snap it, zap it n feed it

Your tears are priceless, I'm a disgrace, coz u suffered my rage

I've come of age, I'm a man now, a better one and I'm gonna show

That all these talks are not talks, it aint a hoax

I'mma make u believe in me so that we could be together and start a family

But then again all this is formality

I ain't worried about it, i want normality

Formally or informally

I want u to b happy as ever but that has to be with me coz there's no other guy who'd even try to get u things

that i woud get u without even thinking

Coz you're my thought, without u I'm nought

I'm a rot, scavengers lookin at me, droolin at d thought, feedin off of me

There's no atmosphere, I'm outta all d spheres

There's no key n I'm gettin locked

It's like I'm being strangled, but there's no rope, there's no hope

You're d knife, I'm gettin chopped

Everything that's mine is broke

There's no key n I'm getting locked

So please do understand that all this is for u n only for u

I'm repentin, waitin for redemption

You're my saviour n my baby girl

You're my world n I'd do anythin to get u back my girl

They say everybody deserves a second chance and I'm asking for one

And i aint leaving without the last little dance

Coz u know what

With u on my arms, you're my biggest weakness and my greatest strength
