World Explodes

Elvis Hitler

If you're going to goThen you might as well die
If there's a god you can ask him whyDo you know how fast we're going?Oh man, I'm in another dimension
We're going to get bigger and louderUntil the world explodes around usHard rock and hard liquorLet's speed it upSo we'll get there quickerAnd horror reigns supreme
Anger is the greatest fuelEven if I died right nowI'd be just one less human beingWe're going to get bigger and louderUntil the world explodes around usHard rock and hard liquorLet's speed it up
So we'll get there quickerIt's a nice day to kill somebodyI'll get my wifeAnd all of my buddiesWon't go to workThen I'll kill my friendsI'm going to flipBut I don't know when
We're going to get bigger and louderUntil the world explodes around usHard rock and hard liquorLet's speed it up
So we'll get there quicker
