

# Lights Down

John Newman

[John Newman]

Oh baby

Is it right, is it right, is it all good?

So you see lately

Given up, given up, given up on love

And you, you...

You can try and change my ways

But I'm so scared baby

In the morning I will run again[Chorus]

I can feel it with the lights down baby

With the lights down baby, no, no

I can feel it with the lights down baby

With the lights down baby, no, no

No, no

I can feel it with the lights down baby

With the lights down baby, no, no

I can feel it with the lights down baby

With the lights down baby, no, no

Oh yeah!

I can feel it with the lights down baby

With the lights down baby, no, no[Verse 2]

I can't keep playing

The games I'm playing every night

Guess I'm just hiding

The broken man I am inside

But you, you...

You could help me change my ways

But I'm so scared baby

In the morning I will run again[Chorus 2]

I can feel it with the lights down baby

With the lights down baby, no, no

I can feel it with the lights down baby

With the lights down baby, no, no

Oh yeah!

I can feel it with the lights down baby

With the lights down baby, no, no[Bridge]

Letting out, letting out the pain that we hide within

(No, we ain't doing nothing wrong)

Letting out, letting out the pain that we hide within

(C'mon C'mon)[Outro]

I can feel it with the lights down baby, with the lights down baby, no, no  
I can feel it with the lights down baby, with the lights down baby, no, no  
I can feel it with the lights down baby, with the lights down baby, no, no
