GewGaw

Sodoi

Come back to see the mess you left behind
Come back to see how bad you fucked it up.I want to know what's going on.
I want to know yeah.I want to see what battle scars you got.
I want to see what is you left behind
how many words how many ways
how many words you have to say
how many ways to keep me away.I want to know who you are with no else around.
I want to know who you are with no else around.
I want to know who you are with no else around.
I want to know who you are with no else around.
