

# She Went To Germany

## Violent Femmes

What you gonna do?  
What you gonna do?  
What you gonna do on your vacation?  
What you gonna do?  
What you gonna do?  
What you gonna do for relaxation?  
Change you name?  
Cut your hair?  
You can go anywhere.  
You deserve some fun and rest.  
You deserve the very best.  
She went to Germany.  
Went there without me.  
She went to Germany.  
Left me in misery.  
She went to Germany.  
Gots some style insanity.  
She went to Germany.  
Left me in disharmony.  
Why you gonna do?  
Why you gonna do?  
Why you gonna do that to me baby?  
Are you telling me we're thru?  
Are you telling me we're thru?  
Are you telling me we're thru or is it maybe,  
just another declaration of some female independence,  
or another proclamation to some male friends in attendance.

She went to Germany.  
Went there without me.  
She went to Germany.  
Left me in misery.  
She went to Germany.  
Gots some style insanity.  
She went to Germany.  
Left me in disharmony.  
She eating wurst.  
She's drinking beer.  
She loves a crowd, that's what I hear.

She went to Germany.  
Went there without me.  
She went to Germany.  
Left me in misery.  
She went to Germany.  
Gots some style insanity.  
She went to Germany.  
Left me in disharmony.  
She went to Germany.  
Went there without me.  
She went to Germany.  
Left me in insanity.  
She went to Germany.  
I gots some style in misery.  
She went to Germany.  
Left me in disharmony.
