

# Administrative Decisions

## Sacred Reich

Conformity training center  
Seas of mindless brain dead kids  
Wandering lost forever  
What an education is Don't speak out, don't make waves  
You get an education free  
Just play along with our games  
This system just ain't right for me Faculty not ready to accept our needs  
Schools geared to what parents want to see  
Knowledge comes second to doing what you're told  
We deny you exist we have an image to uphold Obedient little classes  
In this fascist little high school world  
Encouraging apathy  
Get involved and you'll get burned Student council chosen  
To meet the wishes, student needs  
Principal with veto power  
Sees these wishes meet defeat Faculty not ready to accept our needs  
Schools geared to what parents want to see  
Knowledge comes second to doing what you're told  
We deny you exist we have an image to uphold Graduate or be cast out  
You can't fit in, there is no doubt  
Just go get your GED  
'Cause high school ain't right for me What a shame you almost passed  
Sorry though you could not be last  
You have no chance to succeed  
Fuck you all, just watch and see Faculty not ready to accept our needs  
Schools geared to what parents want to see  
Knowledge comes second to doing what you're told  
We deny you exist we have an image to uphold
