Driving

Steph Pockets

You wanna come play my sex games baby
You still want me to taste you, don?t you?
I give, rather play babe, ooh ooh you
Yes, I will, oh yeah
You and I alone up in my Benzie
Body's got me goin' in a frenzy
Let?s be on our way to my hideaway
So many things, I like to do
Can?t hide the fact our hearts are racin'
Yeah, I can smell anticipation
This is all for you, please enjoy the view
I?ll show you things, you never knew, ooh
I will be driving and you will be riding
Riding all night long to a slow song
I will be driving and you will be riding
Riding all night long to a slow song, girl
Turn the music up that joint is soothin?
Can?t ignore how your body is movin?
To the kickin? snare, girl we?re almost there
I can?t believe my tinted eyes
Now look at you, you got my body swervin?
An evenin' on me, girl you?re deservin?
To be pleased
And girl, I hope you'll know what I mean, baby
I will be driving and you will be riding

Riding all night long to a slow song
I will be driving and you will be riding
Riding all night long to a slow song, girl
(Baby can we please go home?)
Up and down and side to side
I will provide, all that you need
We can speed or take it slow
Head to toe
You will be pleased
Up and down and side to side
I will provide, all that you need
We can speed or take it slow
Head to toe

You will be pleased
I will be driving and you will be riding
Riding all night long to a slow song
I will be driving and you will be riding
Riding all night long to a slow song, girl
I will be driving and you will be riding
Riding all night long to a slow song
I will be driving and you will be riding
Riding all night long to a slow song, girl
I will be driving and you will be riding
Riding all night long to a slow song
I will be driving
