

Fingerprint

Leona Lewis

Circles with no end
The ink that stains my skin
Secrets where've you been
Is the only thing that I keep No match, no match, no match
For your fingerprint
No substitute, no other you No match, no match, no match
For your fingerprint
No substitute, no other you Bursting for one sin
Of the innocence I once had
Shadows of the past
And the tattoo lies of your kiss No match, no match, no match
For your fingerprint
No substitute, no other you 'Cause there can only be one
There can only be one Circles with no end
The ink that stains my skin No match, no match, no match
For your fingerprint
No substitute, no other you 'Cause there can only be one
There can only be one
There can only be one
There can only be one
