

Top of the World

Carpenters

For a time I thought my faith, it must be hiding
Searching through the sky, hoping to find a way
A way, to get me through the day
When where I belong, is this where I should stay?

You lift me up when I am fallin'
You're my friend when I was callin'

Now I'm on top of the world
Top of the whole wide world
Yeah, you always been believin'
Give my life a whole new meanin'

Now I'm on top of the world
Top of the whole wide world

There's a strength in me, it seems I have forgotten
Now I realize today, I'm starting to dream again

Again, was a matter of when

I guess we all lose our way now and then

You lift me up when I am fallin'
You're my friend when I was callin'

Now I'm on top of the world
Top of the whole wide world
Yeah, you always been believin'
Give my life a whole new meanin'

Now I'm on top of the world
Top of the whole wide world

You lift me up when I was fallin'

You lift me up when I was fallin'

You lift me up when I am fallin'

You're my friend when I was callin'

Now I'm on top of the world

Top of the whole wide world

Yeah, you always been believin'

Give my life a whole new meanin'

Now I'm on top of the world

Top of the whole wide world

Yeah, you always been believin'

Give my life a whole new meanin'

Now I'm on top of the world

Top of the whole wide world

Always been believin'

Give my life a whole new meanin'
Now I'm on top of the world
Top of the whole wide world
Yeah
Top of the whole wide world
Yeah, you always been believin'
Give my life a whole new meanin'
Now I'm on top of the world
Top of the whole wide world
