

Shock Value

Invisible Inc.

There's a body
Lying lifeless on the street corner
Eyes rolled back in sockets
Pockets empty
Tattered clothes battered
Within an inch of recognition
Someone's gotta know
how to breath life in to a corpse
Marvin Gaye could do it
Gandhi did it once
I've heard public enemy
perform CPR on a deformed culture

Someone call the medic
There's a body lying lifeless on the street corner

We need to shock somebody
c'mon lets shock somebody
I wanna shock somebody
We need to shock somebody
C'mon lets shock somebody
I wanna shock somebody

Said
123 clear
123 clear

Shock somebody
We need to shock somebody
I wanna shock somebody
We need to shock somebody
C'mon lets shock somebody
I wanna shock somebody

Said
123 clear
123 clear

Somebody get in the way
Somebody's gonna get it

Defibrillator lyrics hit the heart like I'm a medic
With the helping of adrenalin
We got the medicine
To take you to a place
I'm guessing most of y'all have never been
It's bedlam in the city
We're getting ready quickly
To knock the socks off your hereditary family pity party
Start by getting risky
And I don't mean getting busy
with the bathroom quicky
Being frisky while you give your chick a hickey

This is serious as a heart attack
Art for your cardiac
Is it so hard to act a little out the ordinary
Yeah you'll scare a couple cats
But fuck a massive coronary
Just take a crack

backup shock somebody

Put your beef aside and send a friend some flowers

backup shock somebody

Quit your job and stop punching in the hours

backup shock somebody

Crank call the president
and be a reverend

Kick the pessimistic shit and

Settle for some betterment

You wanna shock somebody
C'mon lets shock somebody
I wanna shock somebody
You wanna shock somebody
We need to shock somebody
Cut work and shock somebody

potheads turn a new leaf
but narcs come spark one
barred from the players club
fuck it lets start one
bar none
all of us have something to prove
so just jump up
you got nothing to loose
gotta hush hush crush
tella (conjunction of tell her) pucker up buttercup
bust a bully gutter punk
with an uppercut sucker punch
rolla fucka cover up man
just open up
fuck what cha planned

fold your lucky sevens gimmie crazy eights
you can have a heart and play your ace of spades
fuck the haters if they say you too young and baby faced
just sha-sha-sha-sha-sha, sha-shock the world

wear your tuxedo in the rain in your speedo
in a business meeting come with cheeto stains on your fingers
keep on giving past the Christmas season
pistol with your inner demons

sha?sha-sha-shock the world

I wanna shock somebody
Ya wanna shock somebody
We need to shock somebody
