A Red Light Situation (Acoustic)

Not Advised

Verse 1: Well you can take it or leave it, either way its fine
And i'd love to say we care but we got better things in mine
Well you can fake it or mean it, just look me in the eye
And tell me honestly how you are worthy of our timeChorus: This is our situation, and we're happy to be here
I wouldn't change this place for anything x2Verse 2: Sometimes wish i could turn back time
Soften up and draw a line
And see you cross it, unaware of whats on the other side
Well we'll be waitin, to shrug off every lie
Your lips are spillin, we'll catch you every time
We'll catch you everytimeChorus: This is our situation, and we're happy to be here
I wouldn't change this place for anything x2Verse 3: Well it's a long way up in this feather town
Gonna touch the sky before i hit the ground
Well it's a long way up in this feather town
I'm gonna touch the sky...Chorus: This is our situation, and we're happy to be here
I wouldn't change this place for anything x3
