

# Hotel Song

## Vast

Where is your god is he here right now  
Is it you and me in this emptiness  
If I was a saint would you be here now  
With your jacket on the floor and your jewelry in the sink  
Curl up your body its fine  
I've got something to pass the time  
Drink and be merry tomorrow we die  
Tonight I'm yours and you're kind of mine

If you'll have regrets don't have them now  
Its just you and me in this forgotten town  
Your daddy always said nice girls don't mess around  
Did your daddy ever say you were nice

Curl up your body its fine  
I've got something to pass the time  
Drink and be merry tomorrow we die  
Tonight I'm yours and you're kind of mine  
If you're going to leave then leave right now  
Before I start to sing my hotel song  
Check out time is noon you can stay till one  
No I don't say that to just anyone  
Curl up your body its fine  
I've got something to pass the time  
Drink and be merry tomorrow we die  
Tonight I'm yours and you're kind of mine  
Tonight I'm yours and you're kind of mine
