He Did With Me

Vicki Lawrence

Look at you girl
Walkin' down the street for all the world to see
And if it seems you walk on air
Well, who wouldn't be?
You're closer to your brand new love
With every step you take
And I can alsmost tell you
Every little move he'll make

Chorus:
Does he hold you till you're sleepin' softly every night?
Does he wake you with a kiss to share the morning light?
And when he loves you, does he close his eyes?
And reach for you each time you rise?
Has he told you yet, he'll never set you free?
He did with me

I used to smile
At how he'd leave his clothes all scattered on the floor
And leave the shower runnin'
And forget to close the door
The way he said each Sunday
Let's have breakfast here in bed
And all the toast that used to burn
While we'd make love instead

(Repeat Chorus to fade)
