Can t I Know?

[Avi Buffalo](#)

Can't i know what we've been through
I won't stay up, tolex fountain domes
Take my leg i don't need it lost it in war
Stay here 'til you're stoned, and you're alone
I can't tell what you're feeling all the time
Good is better still,Take no mind from people don't you understand
Long as you feel safe, and you're okay
I knew too much, though im trusting you too much,
Though i'm making this work,
Though i'm making this work,Would i speak your language if i lived
With you, not as if i don't
Making fire without this could slow me down
You once took their souls, and left alone
With nothing that i thought could hold you down
Something 'bout your songs, that your soft pink
Lightning took my virgin eyes
From my soft felt cumThough i'm trusting you too much
Though i'm trusting you too much
Though i'm trusting you too much
Though i'm trusting you too much
