Warm Me Up

The Audition

All I want is to be with you.
Show your cards, show me what you've got.
We'll break these poker faces like it or not.
Everyone is inmy head, But i want you in my bed.
I never want to go a day without you.
I could never go a day.

Come closer to me baby, I've got everything you need to fill your hunger pangs for tonight.

Chorus: Warm me up beneath the sheets, babe.
I've heard all about how you can save.
I dont want to go a day without you.

Innocence meet jealousy , isnt she stunning?
She'll make you smile so wide inside.
Make you wish she'd bring back those nights.
Take a walk with me through my head.
I'll show you where I rest.
all those nights that im without you.
Draw a new breathe I swear I'll show you.

Come closer to me baby, I've got everything you need to fill your hunger pangs for tonight.

Chorus.

Closer to me baby.
I've got everything you need to fill your hunger pangs for tonight.
This can all be a reality if you'll stay here with me.
I'll make sure everything is done right.

Chorus.
