

# I Can Do It Right

Joe

Open up please baby, let me in  
I want to get inside of you, baby once again  
I'll drive you crazy with both my hands  
Your every wish, I promise, is my command  
Make you all over till I make you scream  
Make you feel like you're in fun land  
I'll make believe  
I'll take real nasty, baby in your ear  
Make you moan and groan  
I'll even make you shed a tear Girl, I can do alright, right?  
I'll make love to you all through the night  
Girl, I can do alright, right?  
I'll make love to you all through the night Been all over, now lay down flat  
Turn on your side, now on your back  
Don't get tired, baby, there is more to come  
I'll tell you baby, that I am the one  
Settle baby, right down to my knees  
Send me to the world of ecstasy  
Slow it down, don't go so fast  
We've got all night, let's make it last Hey baby  
I have lots of love to give  
I'll make you happy  
I'm so exciting  
Let me come inside  
I want to bring you joy
