

# Higher

## Razah

    bless the day that  
    you walked into my life  
    cos i was lost before you  
    by your side i wanna do right  
    love you girl for the rest of my life  
    (leave it all just for you)  
    you opened up my eyes  
to things that i never ever seen before  
    you took the darkness away  
    i can see clearly now  
    the rain is gone i'm above the clouds  
i'm looking at life in a different way (different way)  
    you take me higher (higher)  
    then i've ever been before  
    baby don't let go  
    cos you take me away  
    baby see my love  
    is for you and only you baby  
    you take me to a better place  
    i'm floating  
    cos your love's got me focus (focus)  
these words come straight from my heart (straight from my heart)  
    the connection that we share  
    nothing in this world could ever compare  
    i felt it from the start  
    when it's just you and i  
    i know the limit is the sky  
    i'm so glad that you're mine  
    we can go see the world  
    cos you're my favourite girl  
do you hear these words (do you hear these words)  
    you take me higher (higher)  
    then i've ever been before  
    baby don't let go  
    cos you take me away  
    baby see my love  
    is for you and only you baby  
    you take me to a better place  
    you take me higher (higher)

then i've ever been before  
baby don't let go  
cos you take me away  
baby see my love  
is for you and only you baby  
you take me to a better place  
baby you deserve  
the finer things in life (the finer things, the finer things in life)  
i'll give it to you (i'll give it to you)  
just the way you like (just the way you like)  
you take me higher (higher)  
then i've ever been before (then i've ever been before)  
baby don't let go  
cos you take me away (cos you take me away)  
baby see my love  
is for you and only you baby (is for you and only you baby)  
you take me to a better place (girl you take me, girl you take me)  
you take me higher (higher)  
then i've ever been before  
baby don't let go  
cos you take me away  
baby see my love  
is for you and only you baby (is for you and only you baby)  
you take me to a better place (you take me baby, you take me)  
yeah ohh cos you take me away
