

Feelings Gone (Spor Remix) [feat. Sam Sparro]

Basement Jaxx

I never thought, I never dreamed
That things would get the better of me
But then a shadow creep just behind me
Oh, I guess you can't run forever on your own, no, no
Tell me, tell me will you walk with me
Just for a little while until the feeling's gone?
Tell me, tell me will you walk with me
Just for a little while until the feeling's gone? It gets so cruel, it gets so cruel out there in the world outside
When you're standing, just standing on your own
Oh, it seems like every little part of your soul's exposed
And I know out there no one's on your side
Tell me, tell me will you walk with me
Just for a little while until the feeling's gone?
Tell me, tell me will you walk with me
Just for a little while until the feeling's gone? I'm not asking for you to fall in love
For some great romance
Just be with me until the feeling's gone
Feeling's, feeling's, feeling's gone, gone, gone
Tell me, tell me will you walk with me
Just for a little while until the feeling's gone?
Tell me, tell me will you walk with me
To hold my hand until the feeling's gone? So how about you, my shadow and me
Just us three, just us three walking on
