Can't wait to see you

Wear something see through  
See girl what we did last night

The sequel get ready

Let's make a DVD  
Watch it over and over and over and over  
On plasma TV  
Body shadow boxing on the wall  
Standing ovations curtain call  
And after every encore.... More more  
It's the making of love's greatest episode  
\*\*From the bed to the wall  
On the floor by the fire place  
Make a night to remember  
Years from now  
We can still replay  
Do it once then again  
Till that perfect take  
You've got the leading role  
In love's greatest episode  
The night is full of possibilities  
Anything goes
