

Let's Live

Krayzie Bone

Let's live, let's live, let's live, let's live, let's live, live
(You got to keep livin')
Come on and let's live, let's live, let's live, let's live, let's live, live
(Tryin' to stay, got to stay alive)My niggaz let's live, let's live, let's live, let's live, let's live, live
(You should be livin')
Come on and let's live, let's live, let's live, let's live, let's live
Let's live, let's liveI look at my life and I realize I don't wanna let go
No, I'm tryin' to survive, I don't wanna die, I'm searchin' the best road
Never playin' myself, I'm playin' with death
Nigga, y'all better wake up to livin' and appreciate the life ya givin'Oh, no, I don't wanna go, not now man
There's too many things a nigga got planned, so much to understand
Still so many goals for me to achieve in, please, believe in
It's rough but still that ain't a reason to stop ya breathin'They ask if a nigga was scared to pass away
And I'm tellin' 'em, "Hell yeah, I can't hug my babies
If I drift and slept in Hades"
It's crazy how niggaz be killin', be sayin' they ready to die
You ready to die? I'm ready to live, nigga, grow up wit my kids, niggaAin't takin' no chances on no after life
Because there's only death after life
So I be spending my time, tryin' to stay alive
If I gotta live and let dieLet's live, let's live, let's live, let's live, let's live, live
(You got to keep livin')
Come on and let's live, let's live, let's live, let's live, let's live, live
(Tryin' to stay, got to stay alive)My niggaz let's live, let's live, let's live, let's live, let's live, live
(You should be livin')
Come on and let's live, let's live, let's live, let's live, let's live
Let's live, let's liveNow that we livin' in a world full of war and murder
But money makes the world go round and round
Everybody killin' everybody, what's that sound?
How many make the heat that buck come buck 'em on down?May we all rest in peace
It looks like we gon' all rest in peace
(The world R.I.P.)Let's live, let's live, let's live, let's live, let's live, live
(You got to keep livin')
Come on and let's live, let's live, let's live, let's live, let's live, live
(Tryin' to stay, got to stay alive)My niggaz let's live, let's live, let's live, let's live, let's live, live
(You should be livin')
Come on and let's live, let's live, let's live, let's live, let's live
Let's live, let's liveNow everybody wanna go to Heaven but nobody wanna die
And that don't make sense but let me tell ya
That I know of a place where we can go and just chill for real

No more crime, no more strain
No more die, no more pain
No more wasting our lives away
Got to pray, got to pray, got to pray, got to pray
Every day, every day, every day, every day
And if ya fall, sure to ride and everything's gonna be alright
Just keep ya eyes on ya prize
And maybe you'll make it up out of this life
We all die so young, victims of the gun
A poverty to harmony and then it marks us
My nigga, you ready to end it, potnah, speak for yourself
I'm down with life and everything else to hell with death
Let's live, let's live, let's live, let's live, let's live, live
(You got to keep livin')
Come on and let's live, let's live, let's live, let's live, let's live, live
(Tryin' to stay, got to stay alive)
My niggaz let's live, let's live, let's live, let's live, let's live, live
(You should be livin')
Come on and let's live, let's live, let's live, let's live, let's live
Let's live, let's live
Let's live, let's live, let's live, let's live, let's live, live
(You got to keep livin')
Come on and let's live, let's live, let's live, let's live, let's live, live
(Tryin' to stay, got to stay alive)
My niggaz let's live, let's live, let's live, let's live, let's live, live
(You should be livin')
Come on and let's live, let's live, let's live, let's live, let's live
Let's live, let's live
