Such the Fool

Sikth

Paint your face,Cover the black heads
Short top bulging up your saggy tits
Cut your skirt just a little bit shorter
Don't you wannaToilet paper going down your top
Do ever think about bringing out some condoms
When you aim to go out and get fucked
Fucked all night longWearing No Un Der Wear to slip it in and bang bang
And tattooed on her butt cheeks
Fuck meEverybody here comes in your face
You're wanting everybody looking on in your direction
Have you looked at your skin complexion
How could I ever put my dick in youBitchin erected muscle lickin
Think I'd rather be chokin my chicken
Do you ever think about who you're fuckin
Fucked all night long
Cheap SlutI see
That you don't want to be saved
Protection gets in your way
But I don't want this disease, so...Sucking off in the toilet
That door has, your name, written on it
You fuck there more every night now
Everything in townSemen dripping from your eye lids
Running down your cheek you're rancid
Tattooed insert across your lips
I am disgustedWearing No Un Der Wear to slip it in and bang bang
And tattooed on her butt cheeks
Fuck meEverybody here comes in your face
You're wanting everybody looking on for your attention
When you fuck is there still sensation
How many men have been in youBitchin, erected muscle lickin
Think I'd rather be chokin my chicken
Do you ever think about who you're fucking
Fucked all night long
Cheap SlutI see
That you don't want to be saved
Protection gets in your way
But I don't want this disease, so...So what do ya do
Go out and get fucked by 10 different men then go and brag to your friends
Do you think that makes you a better person

Please tell me what you were like as a virgin
Just an easy whore
Open the door and come in
Let the transmitting begin
Do you ever think about the people you're fucking
Bet you laugh at them thinking they got lucky
May as well strap an advert to your back saying 'Fuck Me, Free Disease'
Stupefied Bitch
Open Legs
Insert Quick
