

# The Dreamer

JosÃ© James

Funny thing about dreamers  
When the dream is in their sights  
Just to get where they're going  
They leave a lot of good things behind  
Guess you could call me a dreamer  
And I've seen it all come true  
So I smile when I need to look happy  
And do all the things they tell me to  
Yeah I'm a big self-made man  
And a fool who can't understand  
I thought I needed fortune  
I thought I needed fame  
But all I need is to hear you  
Whisper my name  
If I could only make the future  
An extension of my past  
I'd take these broken memories  
And make those moments last  
Now that my ship has come  
I wonder what have I done  
I thought I needed fortune  
I thought I needed fame  
But all I need is to hear you  
Whisper my name  
I thought I needed fortune  
I thought I needed fame  
But all I need is to hear you  
Whisper my name  
Oh yeah, whisper baby
