

Here We Go (Greatest Hits (The Atlantic Years))

P.O.D.

And he never knew the meaning
Of love until he seen her
Oh, man, she really drives him crazy
And she knows what she's doing Heart aches, she can't fight this feeling
And won't stop until he tells her
She is his one and only lady
And you got to believe me Here's what he said, what he said
And this is what he said If you take my hand then we could run away
Stay close to my love 'cause you may go again
Don't let go of my hand so we can fly away
If you trust in my love 'cause this will never end She never did believe in
Love until she seen him
He's got to be pretty amazing
For her to share what she's feeling She takes the chance time for living
If she wants to get with him
She said, You're gonna think I'm crazy
But you got to believe me Here's what she said, what she said
And this is what she said If you take my hand then we could run away
Stay close to my love 'cause you may go again
Don't let go of my hand we can we fly away
If you trust in my love 'cause this will never end Seems like we spend so much time
Driving this to where she is
And I guess I won't really mind
If we're living for you and me And this is what we said If you take my hand then we could run away
Stay close to my love 'cause you may go again
Don't let go of my hand we can we fly away
If you trust in my love 'cause this will never end If you take my hand then we could run away
Stay close to my love 'cause you may go again
Don't let go of my hand so we can fly away
If you trust in my love 'cause this will never end
