

Rocky Road

Stick Figure

No destination, nowhere to go

No obligation, no one to call

The rocky road is getting long

The rocky road won't take me home

Situations they come and go

No hesitation you walk out that door

So what do I do? I got nothing to lose

I keep it cool around you, you, you

I lie awake I got my eyes wide open

I listen to the rhythm and the sound of the ocean

I try to sleep but then I am awoken

The sound of the train always gives me hope to see you

To see you, to see you, to see you

Relation, it will ease your mind

Expectations, don't waste your time

So come on let's go to the great unknown

Don't stay home, stay true, true, true

I was there I was waiting by the train stop

Waiting for the train, but never did the train stop

I waited a while and then I felt a rain drop

Something made me smile

It was not you, not you

Not you, not you
