

# Meadow

## Stone Temple Pilots

Rise and shine, Clementine  
There is something about you  
Do you think you can dance  
Cause I'm willing to stay fade away  
And ride alongSing a song, make it long  
Cause there's nothing without you  
All I need is a chance  
And I'm willing to play, not today  
And ride on, on and on  
Yeah, we're all...  
Yeah, we're all just killing time  
And having fun  
Here in the sun  
When there's nowhere to hide  
Yeah we're gonna step on  
As we drink from the flame  
That was burning in the meadow  
We've broken our lives  
Innocence of our souls  
We can drink from the flame  
That was burning in the meadow  
You're the man, Clementine  
'Cause I can't live without you  
I got something to say  
But you've already made  
Made your way, so ride on  
When you're gone, here's a song  
I've been thinking about you  
I'll remember your ways  
And the clues that you gave, gave away  
So ride on, on and onYeah, we're all...  
Yeah, we're all just killing time  
And having fun  
Here in the sun  
When there's nowhere to hide  
Yeah we're gonna step on  
As we drink from the flame  
That was burning in the meadow  
We've broken our lives

Innocence of our souls  
We can drink from the flame  
That was burning in the meadow I gave you all you gave another  
I hold the wheel, you light the flame When there's nowhere to hide  
Yeah we're gonna step on  
As we drink from the flame  
That was burning in the meadow  
We've broken our lives  
Innocence of our souls  
We can drink from the flame  
That was burning in the meadow
