The Date

Scott Weiland

She waits for a date
And yet she knows that he's not coming
He waits for the date
And yet he knows that he's not comingI hope that it's not the break up
And I hope that it's just the break
She waits for a date
And yet she knows that he's not comingHe waits for the date
And yet he knows that he's not coming
She waits for a date
And yet she knows that he's not comingI hope that it's not the break up
And I hope that it's just the break
I hope that it's not the break up
And I hope that it's just the breakI hope that it's not the break up
And I hope that it's just the break
I love you, I love you, I love you
I love you, I love you, I love youI love you
