

I Miss U

Dan Talevski

Long sleepless nights, and everything's not right
You should be here by my side
Things stick the same, how could we let it change?
Cause we want everything I need you to know
I'll never let go of you and me
And I need you to trust, the love between us
When times are so tough, I need you to see Chorus:
That I miss you!
I, I, I really miss you
That I miss you, hey, hey
I really miss you, yeah, yeah
That I miss you,
I, I, I really miss you, hey, hey
At the end of the day, I need you to say
I miss you, I miss you. Long restless days, battling with this pain
Wish you could take it away
Miles, and miles apart
It's like living in the dark
It's messing with my heart I need you to know
I'll never let go of you and me
And I need you to trust, the love between us
When times are so tough, I need you to see Chorus:
That I miss you!
I, I, I really miss you
That I miss you, hey, hey
I really miss you, yeah, yeah
That I miss you,
I, I, I really miss you, hey, hey
At the end of the day, I need you to say
I miss you, I miss you. I'm sick of watching the clock,
I'm so tired of waiting, waiting, waiting
All this time apart,
You know it's driving me crazy, crazy, crazy I need you to know
I'll never let go of you and me Chorus:
I miss you!
I, I, I really miss you
That I miss you, hey, hey
I really miss you, yeah, yeah
That I miss you,

I, I, I really miss you, hey, hey
At the end of the day, I need you to say
I miss you, I miss you.
