

# Window to My Heart (Xquizit DJ X Club Mix)

Jon Secada

Alone in the dark  
Waiting for the sunrise  
Feeling wide awake  
Pretending you're there with me  
Don't wanna close my eyes  
Because I wanna keep believing  
That we can be together  
As far as I can see  
I know you feel the same

Give us the chance to make it  
Through your eyes there's a window that goes to my heart  
I can see me still loving you the rest of my life  
Look inside, look inside through the window that goes to my heart  
Stay with me tonight  
I promise you one thing girl  
No matter, come what may  
I'll always be here for you  
And if you believe in me  
I know that I can be  
Everything that you need  
As far as I can see  
I know you feel the same

Give us a chance to make it  
Through your eyes there's a window that goes to my heart  
I can see me still loving you the rest of my life  
Look inside, look inside through the window that goes to my heart  
You're the only one who's light has ever  
made it through  
And I've been waiting for so long for somebody like you  
Look inside, look inside through the window that goes to my heart  
No I don't care how long I have to wait  
If it means that you'll stay  
Through your eyes I always feel the truth  
Make no mistake

Give us a chance to make it  
Look inside, look inside through the window that goes to my heart  
Through your eyes there's a window that goes to my heart  
I can see me still loving you the rest of my life  
Look inside, look inside through the window that goes to my heart  
You're the only one who's light has made it  
through  
And I've been waiting for so long for somebody like you  
Look inside, look inside through the window that goes to my heart  
Through your eyes there's a window that  
goes to my heart  
I can see me still loving you the rest of my life

Look inside, look inside through the window that goes to my heart
