Collide

EVVY

[Intro]
And I'm shooting signals for you
And I'm calling out a warning for you
And you got me, got me movin'
You got me, got me movin'
And I'm shooting signals for you[Verse 1]
I'm searching for signs to find you
And I'll follow the stars that guide me
To get, to get to your heart
Before our world falls apart
Searching high and low tonight[Hook]
Just shine a light, I'll find my way through the darkness
You better hold on, I'm coming for you
Just shine a light, I'll find my way through the darkness
Cause you got me, got me movin'
Yeah, you got me, got me movin'[Verse 2]
I'm not giving up you now
You're reason that I'm living without
All the madness making it hard
I'm falling back to you heart
My heart's running wild tonight[Intro]
And I'm shooting signals for you
And I'm calling out a warning for you
And you got me, got me movin'
You got me, got me movin'
And I'm shooting signals for you[Hook] [2x]
Just shine a light, I'll find my way through the darkness
You better hold on, I'm coming for you
Just shine a light, I'll find my way through the darkness
Cause you got me, got me movin'
Yeah, you got me, got me movin'[Bridge]
You got me movin'
You got me movin'[Hook] [2x]
Just shine a light, I'll find my way through the darkness
You better hold on, I'm coming for you
Just shine a light, I'll find my way through the darkness
Cause you got me, got me movin'
Yeah, you got me, got me movin'
