

Let It Be With You (12'' Version)

Belouis Some

I took a picnic down to Pleasure Beach
I thought of paradise but she's out of reach
I don't care if that's right or wrong
I don't care if you're brave or not, so...Go on and stand in the corner
Put your head in your hand I don't know what I have to say
I don't know what I have to do
But if I have to fall in love, then
Let it be with you
I thought of heaven and its hold on you
I thought of pleasure, so I thought of you too
I tried dreaming but my heart's not ready
Your guns are blazing but your hand's not steady, so...Go on and stand in the corner
Put your head in your hand I don't know what I have to say
I don't know what I have to do
But if I have to fall in love, then
Let it be with you Minute by minute you feel her slip on by
Your mind is clear but there's a cloud in your eye...Go on and stand in the corner
Put your head in your hand
I don't know what I have to say
I don't know what I have to do
But if I have to fall in love, then
Let it be with you
