Beer Or Gasoline

Chris Young

We'll, two dollars shy of a five dollar bill
Last mile I pushed my truck uphill
About hurt meI left my truck by the pump right where I parked it
Walked through the doors of the Last Chance Market
Have mercy, I was thirstyThe guy behind the counter said, What's it gonna be?
I said, I don't know man, you tell meWell, it's a gallon of gas or a cold six pack
One goes in my tank, one comes in a sack
Makes life complicated when it costs the sameHell, it ain't no fun to do without one
But I'll do a lot of walkin' if my motor don't run
It's a tough ol' choice to make if you know what I mean
It's either beer of gasolineI could feel that video camera watch me
Checkin' out the sale on the ol' Milwaukee
Three bucks to my nameThat cooler had every brand known to man
Tall boys, bottles and aluminum cans
Ohh, what a shame!Man, it's gettin' pretty bad when you finally discover
It all comes down to either one or the otherIt's a gallon of gas or a cold six pack
One goes in my tank, one comes in a sack
Makes life complicated when it costs the sameHell, it ain't no fun, to do without one
But I'll do a lot of walkin' if my motor don't run
It's a tough ol' choice to make if you know what I mean
It's either beer of gasolineI can see where this is headed
And I'm tired of talkin'
Cold beer unleaded
Hell, I'm walkin'Well, it's a gallon of gas or a cold six pack
One goes in my tank, one comes in a sack
Makes life complicated when it costs the sameHell, it ain't no fun to do without one
But I'll do a lot of walkin' if my motor don't run
It's a tough ol' choice to make if you know what I mean
It's either beer of gasoline, beer or gasolineIt's a gallon of gas or a cold six pack
One goes in my tank, one comes in a sackNow it ain't no fun to do without one
But I'll do a lot of walkin' if my motor don't run
