## Kreator

Passing of perception unforeseen reaction  
Staring out the window into the ice cold air  
Memories of summer causing my depression  
Through concentrated death and rainfall of despair  
Visionary eden turns to hell Winter martyrdom  
Freezing me from inside  
Past life delirium  
As my tears turn to ice Snow the white empress, frost the ice cold forest  
At mountains of dead bodies I drank the sweetest wine  
Spring awaits lust for the autumn dominatrix  
Life remains a dream within a dream visionary symbols  
ancient shine Summer's gotta come bringing back the sun  
Zero to none, winter awaits us all  
Mystic awareness
