

I Love the Rain

Lenny Kravitz

The clouds are forming, she comes again
I'll go and walk with her along the Seine
Soon she'll be storming, here comes the wind
But that don't bother me cause she's my friend I love the rain
I love the rain I've held our memories all of these years
So many good times and many tears
I share my dreams with her, I share my fears
So I just walk with her until she veers off in the distance I love the rain
I love the rain
I love, I love
I love the rain, ooh Just as she always does, she has to leave
With her she takes my heart into her breeze
Sometimes I think that she just likes to tease
Still I'll be waiting for her reprise I love the rain
I love the rain
I love the rain
I love the rain I love, I love, I love
I love the rain, ooh yeah
I love, I love, I love
I love the rain, ooh yeah
I love the rain
