In Between

Beat Happening

I heard you talk last night
Couldn't even speak a word
(???) got me by the tongue
It's nothing you havent heard

In between what's true and false
In between what's loud and soft

I ask you about the past
You didn't want to talk about it
you didn't want to trouble me
It's just old history
She's got too much imagination
She's a queen of variations
Tried so hard to make you forget
See yourself in the TV set

And i remember when my ??? left
It was year before my birth
And i can see them years from now
(?)They go flying above the earth
And let's not talk about makes us die
Let the jokes make the years go by
Cause it's a burden it's hard to bear
It's too easy to not even care

Baby looks so sweet
Pick me up right off my feet
And we'll go down to the world of dreams
It's so hard but that just how it's seems
There's a mask upon the wall
In between the window and the hall
In between nothing's ever (done?)
What's ahead and where you come from?

If you could would you fly away?
Or stick around for another day?
