It's You

Kem

Baby
You're the one I love
YeahThe queen of my heart
The light of my soul
You're more precious
Than anythingI don't need diamonds
Nor the finest gold
Darlin'
I cherish you
And I confess
My gratitude
Bless the day
You came along
You got a brotha singin'
A brand new songGirl I wake up in the morning
And I'm tripping cause I'm diggin'
What the Lord has made
It's youNever thought I'd be forever
Gettin' ready but I'm oh so glad you stayed
It's youYou make it better gotta get myself together
'Cause I want you more and more
It's you
Girl it's hard to ignore
It's youA new life
Has come to pass
I'm taking my baby
Home at last
I know I found
My destiny, girl
'Cause you're bringin' out
The best in me
So whatever
The future may hold girl
I'll be lovin' you only
From head to toe
Undivided my love will stand
'Cause you are my woman, yeah
And I'm proud to be your manGirl I wake up in the morning
And I'm tripping cause I'm diggin'

What the Lord has made
It's youNever thought I'd be forever
Gettin' ready but I'm oh so glad you stayed
It's youYou make it better gotta get myself together
'Cause I want you more and more
It's you
Girl it's hard to ignore
It's youYou're the love of my life
To have and hold (Have and hold)
I will treasure you alway
Heart and soul
And our love will stand
'Cause you are my woman yeah
And I'm proud to be your man
It's you (Yeah, it's always been you)
It's you (Got a brother diggin' you girl)
It's you (Darlin' it's you)
It's you
It's youYou've been giving me the lovin' I've been missin'
Baby will you be my #1 fan
It's youHow could heaven ever send me such a person mama
Help me understand
It's youI'm living every second like
I'm finger lickin' good all by myself
It's youI keep pretending that
I'm lovin' every minute when
I want somebody else
It's youI leave them more than just a little sentimental
But I think you know me well
It's youWhen I get to feeling somewhat caught up in the middle
Bsby you're the only one I tell
It's youAnd while I'm at it girl, I'm faithfully romantic
I'll do anything, you are my days
It's youI just wanted to say
It's you
