

Only One and Only

Gillian Welch

There's a hundred bluebirds
Up above the clouds
Putting all the color in the sky Twice as many tear drops
There to wash it down
Everyone's another lullaby But there's only one and only
Who could go and leave me lonely There's a world of trouble
Trying to take it's turn
I can hear it shaking the underground Half a dozen lessons
I might never learn
Not until them troubles come around But there's only one and only
Who could go and leave me lonely There's a mile of blacktop
Where the road begins
It takes a time or two to recognize Growing at the roadside
Scattered by the wind
Are everybody's unsaid sad goodbyes But there's only one and only
Who could go and leave me lonely
You're the only one and only
Why'd you go and leave me lonely?
