

I Hate the Homecoming Queen

Emily Osment

Little short skirt with a big attitude
She wants to be a model
Wants to be on the tube
Yeah
It's one thing or another
She's trouble trouble
Watch out if you're near
She can bring you to tears She's got two boyfriends
And three wannabees
They follow her around like she's Aphrodite
She's number one rated
But she's already jaded
And she's following the trends
In her Mercedes Benz
Everyone wants to know her name
Walking down the hall she's every guys dream I hate the homecoming queen
I'm pretty damn sure she can't stand me
She thinks she's on the cover of a magazine
I hate the homecoming queen
Tonight
That's right Non-fat sugar-free mochachini
She says "Give it to me now you can keep the receipt."
Drinking one after the other
She's trouble trouble
Tossing back her hair and she just don't care
Everyone wants to play her game
Walking down the street she's every guys dream I hate the homecoming queen
I'm pretty damn sure she can't stand me
She thinks she's on the cover of a magazine
I hate the homecoming queen
Tonight
That's right She gets everything she asks for
But she's somehow always wanting more Little short skirt with a big attitude
She wants to be a model
Wants to be on the tube
Yeah
It's one thing or another
She's trouble trouble
Watch out if your near

She can bring you to tears I hate the homecoming queen
I'm pretty damn sure she can't stand me
She thinks she's on the cover of a magazine
I hate the homecoming queen I hate the homecoming queen
I'm pretty damn sure she can't stand me
She thinks she's on the cover of a magazine
I hate the homecoming queen
Tonight
That's right
