Can You Feel That?

Smoke City

Its a dark night that passes the earth with
Its a grasses and deep blue seas
And in the smoke city she is sitting thoughtfully
While they are all up and swaying their dances ways
Derududedudedu
Derududa dancing away

Can you feel that?
Can you feel that?
Can you feel that?

Its a carousel turning an animal walking
And nobody knows what will happen
To anybody anyway
Derududedudedu
Derududa dancing away
And the more she will know when
she's let it all go once again go

Can you feel that?
Can you feel that?
Can you feel that?
Can you feel that?

Derududedudedu
Derududa dancing away
Can you feel that?
She is on a peak looking over the valleys
Derududedudedu
Derududa dancing away
Papa-pa
Cuddle
Papa another world turns

Can you feel that?
Can you feel that?
Can you feel that?
Can you feel that?
