

# Break of Dawn

## Tesla

Livewire, I'm wound up tight  
On fire, a blazin' light  
In your face, I'm here to fight  
Take your place and get it right  
Ain't no grays, just black and white  
But you pray I'm takin' flight  
Circlin death \_\_\_\_ on every \_\_\_\_  
I'm dead tired, I'll sleep when I die  
Candles burnin'  
Eyes are turnin' red  
And lookin' down on you  
Voices screamin'  
Lies inside my head  
And you know that it's true  
I can see the sunlight through the clouds  
Keepin' out of sight  
There's no warning  
The nightmares coming back  
Until the break of dawn  
Come on, bring it on  
Until the break of dawn  
All night  
Listen up, now here's the deal  
I'm fuckin' crazy and don't appeal  
From head to toe, I keep it real  
A cannonball made of steel  
Moving fast down the road  
On two wheels, I'm a heavy load  
I wake up and I'm ready to go  
Just in time for one more show  
Candles burnin'  
Eyes are turnin' red  
And lookin' down on you  
Voices screamin'  
Lies inside my head  
And you know that it's true  
I can see the daylight through the clouds  
Keepin' out of sight  
There's no warning  
Nightmares coming back  
Until the break of dawn

Come on bring it on  
Until the break of dawn  
All night  
Candles burnin  
Eyes are turnin red  
And lookin down on you  
Voices screamin  
Lies inside my head  
And you know that it's true  
I can see the morning turning black  
Keepin out of sight  
There's no warning  
The nightmares coming back  
Until the break of dawn  
Come on bring it on  
Until the break of dawn  
All night On and on and on and on and on...
