Oh Yeah

Broken Home

i never thought you existed til i saw you with my eyes
like a dream you came into my life
never once did i doubt it 'til i found you out one day
when you accidentally stepped into my room and you saidsorry - I've got the wrong place - i said i don't mind baby it's ok
slow down - take it easy - something inside of me saidoh yeah - yeeah - yeah yeah
oh yeah - yeeah - yeah yeah
it's you it's you i found you yeah - it's you i found you yeah
it's you i want oh - i'm gonna have youyou were just around the corner - said you been there all my life
i've walked that road a thousand times
never once did i see you until the other day
baby how could you be so close yet so far away
