Harmonic Generator

The Datsuns

I'm gonna push the button flick the switch today
'Cause you got nothing I want, I got nothing to say
It's been 16 days since I seen your ass
Heading to the city, you think your high classA harmonic generator, inter modulator
A harmonic generator, inter modulatorWearing next to nothing, she's out of control
She likes to shake what she got from her head to her toe
She got big yellow eyes lighting up like Christmas
Turning tricks baby, electric mistressA harmonic generator, inter modulator
A harmonic generator, inter modulator
Yeah ohLike a harmonic generator, inter modulator
A harmonic generator, inter modulator, yesCome on, now let's shake it down
Down to a harmonic generator
"Here we go", I said, yeah, yeah, what's up? YeahWell like a harmonic generator, inter modulator
A harmonic generator, inter modulatorA harmonic generator, inter modulator
A harmonic generator, inter modulator
A harmonic generator, inter modulator
A harmonic generator, inter modulator, yeah
