

I'll Love You So

Above The Golden State

I feel the sun, its returned again
To chase the cold far away
Im not alone to fight the world Im in
You gave me hope for better days I was searching for a friend like no other
I never thought Youd come my way Everything I give to You
Ill love You so
Everything I say or do
Ill love You so Look where weve come, how could I ever forget
Before Your love my heart was dead?
I was afraid that my sun would set
But You stayed around to lift my head I was living my whole life undercover
I never dreamed Id see Your face Everything I give to You
Ill love You so
And everything I say or do
Ill love You so Ooh, Ill love You so
Ooh, Ill love You so Everything I give to You
Ill let it go
Everything I say or do
Ill love You so Ooh, Ill love You so
Ooh, Ill love You so (Ooh, I feel the sun)
Ill love You so
I feel the sun
