

# I'm a Stone

## River Tiber

[Verse 1]

Everyone

Following me still

Watching a swan

Blast in the air

The moment of fear

Rising we jump

See I'm tryna go

But I'm pretty gone[Chorus](x2)

I'm a stone, I'm a stone and a sinner

I think[Verse 2]

It's a hard invitation

When I'm the only one waiting

I left my heart in the basement

I left my pride on the way

I want no part in your plan

I got my own understanding

I can hear people walking

I got my ear in the ground

I'm allergic to simply playing a park and you staying

Until it's all set in stone

Yeah but how do you think?

I'm tryna do this alone

I'm tryna do this alone

I got my circle around me

I'm tryna do this alone[Chorus]

I'm a stone, I'm a stone and a sinner

I think[Bridge](x2)

I'm a stone (x4)[Break][Outro](x4)

I'm a stone (x4)
