

Move

Kaskade

Trust me, really believe
That I can care for all your needs
Close your eyes, you will see
It's all about you and me Let's do it, it's all right
The feeling is everything
It's precious, so delicate
Don't be shy Move your thing, I just want to see you
Dance and touch your body, it's interesting
The way you make it come alive
When you be doing it Move your thing, I just want to see you
Dance and touch your body, it's interesting
The way you make it come alive
When you be doing it Have you ever found free
And was it everything you dreamed
Let me tell you all that I have seen
And show you all the lovely things Let's do it, it's all right
The feeling is everything
It's precious, so delicate
Don't be shy Move your thing, I just want to see you
Dance and touch your body, it's interesting
The way you make it come alive
When you be doing it Move your thing, I just want to see you
Dance and touch your body, it's interesting
The way you make it come alive
When you be doing it Move your thing
Just move your thing
Just move your thing Just move your thing
Just move your thing
Just move your thing Let's do it, it's all right
The feeling is everything
It's precious, so delicate
Don't be shy girl Move your thing, I just want to see you
Dance and touch your body, it's interesting
The way you make it come alive
When you be doing it Move your thing, I just want to see you
Dance and touch your body, it's interesting
The way you make it come alive
When you be doing it Move your thing
