Merry

Sashamon

Bad grace finds the reader's eyes
Keep it slow, keep it light over by the side
And it gets too dizzy when it feels too hot
And when it starts to start, it'll never stopSpace and time creep across the line
And try to slow down the fires where the fires hide
But it hits the spot when it gets too hot
And it costs too much if it costs a lotI see your eyes merry
I swear it stops, I swear it doesBad grace finds the reader's eyes
Keep it slow, give it light over by the side
But it gets too dizzy when it feels too hot
And when it starts to start, it'll never stopSpace and time creep across the line
And try to slow down the fires where the fires hide
But it hits the spot when it gets too hot
And it costs too much if it costs a lotI see your eyes merry
I swear it stops, I swear itIn the mood for living
Living seeming but not real mood
What did you say ?I see your eyes merry
I swear it stops, I swear it doesBad grace finds the reader's eyes
Keep it warm, give it light over by the side
But it gets too dizzy when it gets too hot
And when it starts to start, it'll never stopSpace and time creep across the line
And try to slow down the fires where the fires hide
But it hits the spot when it gets too hot
And it costs too much if it costs a lotI see your eyes merry
I swear it stops, I swear itIn the mood for living
Living seeming but not real mood
What did you say?I see your eyes merry
I swear it stops, I swear it does
