

# Moron

## El Rubio Loco

Its hard enough to even fake a smile  
Disillusioned, Im in denial  
Theres something missing cause I cant feel a thing  
Im desensitize You can fake this and I cant take anymore  
Im not so tough, I cant ignore  
You can fake this and I cant take anymore  
Im not so tough I cant ignore anymore All this confusion is running deep inside my head  
How long can I keep this up before I end up dead? Cant believe that it could come to this  
Its only feelings, so I cant resist  
Im falling deeper in denial but I still try to  
Believe in something You can fake this and I cant take anymore  
Im not so tough, I cant ignore  
You can fake this and I cant take anymore  
Im not so tough I cant ignore anymore  
Anymore, anymore, anymore
