Cyclone Chamber

Velvet Acid Christ

(coughing) there over the sky, walking dust, search your ground, a monster hound, why it hurts flying backwards sewn in space time, preacher. psycho rape to ruin the micro world above you, psycho world above. trance out, trance out, cover dreams of glory, the glory meant to destroy. trance out. silk stary, stone tower breath, oh, stone tower breath, oh, soul stone tower, stone tower, ankle, ankle chained to a moving vehicle dragged down a street in vein, in vein, in vein. a vision engulfing me, take my heart, take my heart, breath now the black river that has stolen me, in silence im sleeping, down the river, hid the dream, gives the coins for your eyes, eyes.
