

Dangerous Night

Thirty Seconds to Mars

We burned and we bled
We try to forget
But the memories left
Are still haunting
The walls that we built
From bottles and pills
We swallow until
We're not talking
I am a man on fire

You

A violent desire

What a dangerous night to fall in love
Don't know why we still hide what we've become
Do you want to cross the line?

We're running out of time

A dangerous night to fall in love
Started a stranger

A lover in danger

The edge of a knife
The face of an angel

The heart of a ghost

Was it a dream?
I

I am a man on fire

You

A violent desire

What a dangerous night to fall in love
Don't know why we still hide what we've become

Do you want to cross the line?

We're running out of time

A dangerous night to fall in love
I

I am a man on fire

You

A violent desire
A dangerous night to fall in love

A dangerous night to fall in love

Do you want to cross the line?

We're running out of time

A dangerous night to fall in love

A dangerous night to fall in love

A dangerous night to fall in love
