

# Perfect Vision

## KNUCKLEHEAD

Maintaining a perfect vision  
You don't see the world through other's eyes  
And you never received an answer  
You didn't have the urge to criticize

You and your friends always agree  
You're a mutual praise society  
You're a know-it-all, you don't hesitate  
When given a chance to educate

When you ask for my opinion, each time you leave me reeling

Never and sign of weakness  
Make no mistakes that you'll admit  
Your thanks are all ungracious  
These things you'd rather soon forget

You and your friends always agree  
You're a mutual praise society  
You're a know-it-all, you don't hesitate  
When given a chance to educate

When you ask for my opinion, each time you leave me reeling  
Well you had to ask, so I'll make it fast
