

Blaze

Junior kelly

(for nights, and days we blaze)

Inhale, don't it feel good?

Pass it around so we all could

Be on the same plain, I dwell amongst the clouds

Dream of other styles, captivate, (meditate)

Open a bag that hasn't been touched

A pile of bud, a sack of blunts

Get backwoods to get back, good

Fools

Number one cash drop

Five g's to drop

With no seeds to pop,

Time to recop,

Throw the stress in the trash can

As we laughin'

At the afghan

Of the herb I'm a fan

T-h-c, keep it all in me

Cant you see I'm

Gonna get some

Bubble gum

Been around the world like puffy

Puffin in exotic hot spots

(in exotic pot spots)

Spit from heaven above, hourly dove

She started from the seed to sex the female

Couldn't cut her, couldn't taste her till the hairs was half pale

Trade affiliated

Chillin' 96 degrees in the shade faded

And god bless my

D-j Ty

Keepin' my dubs wise

Pockets broke in size

Haterism on the rise

(no joke, man)

Lacin' up, tokin' herbals, tokin' verbals

Fuzzy like gerbals
Off the plant I pick it,
To the paper I stick it,
Fine lime fruity smell makes even straights wanna kick it,
Taste it,
Better organically grown, sun basted
I go batty batty batty
Burnt seats in the caddy
Due to 320 hollow florescent sodium
Clipped and transplanted
Females, have your eyes slanted
Iris burgundy,
Phasing in and out
With lots of laughs and a couple of blunts

Up the charts I'm scalin',
I got the bomb for you,
There's no need for hatin'
I got nugs you can hug like pimps
It don't mean a thing to me
Just don't double clutch,
Pass the stuff I know you had enough
Gettin' all freaky and stuff
Trees for breakfast, trees for lunch
Rockin' weed, kool aid punch, Nestle crunch
Crunch buds
Lots of love and peace sign
I feel fine

(for nights and days we blaze)

Hella zoned, hella blown
Hit up my man on the telephone
Fried, sky high
Bake for the day, fry now pay later
Comin' up on the superb herb
Flowers,
T-h-c powers
Got me higher than sears towers
